

YOUTH CENTRES AND RECREATIONAL ACTIVITIES

Be careful and monitor the risk level for the spread of the coronavirus

For each risk level, the instructions for the previous level must also be followed. The higher the risk, the more careful we need to be. Together, we will find the solutions to keep the risk level as low as possible.

To prevent the spread of the coronavirus, our staff has to follow the recommendations below, and we ask **you** to do the same:

LOW RISK

- do not participate in joint activities if you are ill, take a COVID-19 test if you suspect you might have it
- inform the youth work specialist or coach of a positive coronavirus test or the fact you are self-isolating

MEDIUM RISK

- keep your distance from other people and limit your contacts
- activities take place outdoors
- do not switch groups for group learning and activities
- wear a mask indoors in crowded areas (except children under the age of 12)

HIGH RISK

- wear a mask indoors (except children under the age of 12)
- activities take place outdoors / distance or individual learning
- activities with a high risk of infection are prohibit-

VERY HIGH RISK

- distance learning is allowed; nobody can go to hobby school, hobby group, or the youth centre
- outdoor individual learning or activities are allowed
- excursions or training visits are not organised

Are you

vaccinated?
